SUMMARY

Experienced developer with expertise in React, CSS, JavaScript, TypeScript, Next.js, Node.js, Sass, Redux, Figma, Git, HTML, and Bootstrap. Skilled in creating responsive and intuitive user interfaces using React and other front-end technologies, with a focus on scalability, maintainability, and performance. Experienced in developing and integrating RESTful APIs and state management solutions. Proficient in using Git for version control and collaboration. Excellent design skills using Figma. Proven ability to work collaboratively in a team environment and deliver high-quality work within tight timelines

SKILLS

Software: Javascript, Typescript, Nodejs, Reactjs, Css, Next Js, Tailwindcss, Html, Scss, MongoDB, Redux, SQL, Azure, .Net, Firebase

Other: Agile methodology, Scrum, Sprint, Daily Stand

EXPERIENCE

Mid React Js Developer

Questronix Corp.

May 2023 - January 2024, Makati

- Developed and maintained responsive web applications using React.js, ensuring optimal user experience across various devices and browsers.
- Collaborated with cross-functional teams including designers and backend developers to deliver high-quality, scalable, and performant front-end solutions.
- Implemented new features and user interfaces according to design specifications and user requirements.
- Participated in code reviews, providing constructive feedback and adhering to best practices to maintain code quality and consistency.
- Improved application performance by optimizing rendering processes, minimizing API calls, and employing state management libraries like Redux.
- Integrated RESTful APIs and GraphQL endpoints to retrieve and update data, maintaining data integrity and seamless user interactions.
- Utilized modern CSS methodologies such as CSS Modules or Styled Components to create visually appealing and consistent UI components.
- Ensured code maintainability and reusability by creating modular, well-documented, and efficiently structured codebase.
- Worked with version control systems (e.g., Git) to manage codebase, collaborate with teammates, and resolve merge conflicts.
- Diagnosed and resolved technical issues and bugs, identifying root causes and implementing solutions to maintain application stability.
- Participated in Agile/Scrum ceremonies, contributing to sprint planning, stand-up meetings, and retrospectives to ensure timely project delivery.
- Stayed updated with the latest industry trends and advancements in React.js and front-end development, incorporating new tools and practices where applicable.

React Developer

Zeniark Philippines Consulting Corp.

October 2022 - April 2023, Clark Freeport Zone

- Collaborating with the design and development teams to create responsive and intuitive user interfaces.

- Writing clean, modular, and well-documented code using React JS and other relevant technologies.
- Participating in code reviews, testing, and debugging to ensure the highest quality of software.
- Staying up-to-date with the latest trends and best practices in web development and contributing to the improvement of the team's processes and workflows.
- Working with APIs to integrate data into the front-end and handling user interactions and events.
- Troubleshooting and resolving technical issues related to React JS and other front-end technologies.
- Continuously optimizing the user experience by identifying and addressing performance bottlenecks and improving accessibility.

React Developer

Wide-out Workforces Inc.

July 2021 - September 2022, Makati

- Designed REST calls using React to streamline user interface performance.
- Developing reusable components: Creating reusable components that can be used across different parts of the application to improve consistency and reduce code.
- Implementing state management: Responsible for implementing state management solutions such as Redux, Context API to manage the application's state and ensure data consistency.
- Improved code maintainability by creating a modular design structure for easy maintenance.

Freelance Web Developer

Karlogic

May 2020 - July 2021, Philippines

- Developing responsive and intuitive user interfaces that meet the needs of your business and its users.
- Writing clean, well-documented, and maintainable code using relevant technologies such as HTML, CSS, JavaScript, ReactJS, NodeJS, .Net Api, and other frameworks as required.
- Implementing efficient and scalable back-end solutions using databases such as MySQL, MongoDB, and Firebase.
- Integrating third-party APIs and payment gateways to provide additional functionality to your website or web application.
- Optimizing website or web application performance by identifying and addressing performance bottlenecks.
- Providing ongoing support and maintenance for your website or web application to ensure that it remains up-to-date and functional.

EDUCATION

Undergraduate Bachelor of Science in Computer Science

Eastwoods Professional College • Balanga • 2015 - 2016

Highschool Diploma

Jose Rizal Institute • Orion • 2015

CERTIFICATIONS

Scrum Foundation Professional Certificate - SFPC™

CertiProf • 2023

Enterprise Design Thinking Practitioner

IBM • 2023

The Web Developer Bootcamp 2021

Udemy • 2021

- The course covers a wide range of topics, from basic web development concepts to more advanced topics like authentication, security, and deployment.
-
